

by this Act fees to cover the costs of administering the Act.” The application fee for original issuance, reissuance, or duplication of a license for EFAC is \$100 for each license issued. A license, and the corresponding licensing agreement, may cover multiple locations under one license, subject the approval of the FSA Deputy Administrator for Commodity Operations (DACO).

Annual User Fees

Annual user fees are assessed based on the cost for site visits to conduct warehouse examinations to determine continued compliance with the terms of the licensing agreement and the USWA. Annual user fees will be assessed independently of application fees and inspection fees. The annual user fee will be \$1500 for 1 to 3 locations, plus \$300 for each additional location operated under the same licensing agreement.

Inspection Fees

Inspection fees are assessed to recover the costs of administering the USWA. The inspection fees are assessed for site visits to determine initial suitability for storage of EFAC. Fees will be assessed for each original examination or inspection and for amendment examinations to modify an existing license. The inspection fee will be \$1000 for 1 to 3 locations, plus \$300 for each additional location operated under the same licensing agreement. Fees for additional or special examination services, including requested examinations or examinations due to adverse conditions, will be assessed at an hourly rate as determined by FSA.

USWA fees for EFAC are provided in the following table:

UNITED STATES WAREHOUSE ACT

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

Meetings; Sunshine Act

The U.S. Chemical Safety and Hazard Investigation Board (CSB) announces that it will hold a public meeting on April 19, 2012, in Buffalo, New York, to present the findings from its investigation of a flammable vapor explosion on November 9, 2010, at the E.I DuPont de Nemours and Co. Inc. chemical plant in Buffalo, New York. The incident involved a contract welder and foreman who were repairing an agitator support atop an atmospheric storage tank containing flammable vinyl fluoride (VF). The VF vapor from interconnected, in-service process tanks flowed undetected into the tank and ignited when the welder was repairing the agitator support assembly. The welder died instantly and the foreman was burned.

The meeting will begin at 6 p.m. at the Embassy Suites Buffalo Downtown, Room: Encore I, II, and III, 200 Delaware Ave., Buffalo, NY 14202 (716–842–1000). The meeting is free and open to the public. Pre-registration is not required, but to assure adequate seating, attendees are encouraged to pre-register by emailing their names and affiliations to publicmeeting@csb.gov by April 14, 2012.

At the meeting CSB staff will present to the Board the results of their investigation into this incident. Key issues involved in the investigation concern flammable gas monitoring, tank isolation and hot work permits and sign-offs. Following the presentation of the CSB’s findings and safety recommendations, the Board will hear comments from the public.

At the conclusion of the public comment period, the Board will consider whether to approve the final case study and recommendations. All staff presentations are preliminary and are intended solely to allow the Board to consider in a public forum the issues and factors involved in this case. No factual analyses, conclusions or findings presented by staff should be considered final. Only after the Board has considered the final staff presentation, listened to the public comments and approved the staff case study will there be an approved final record of this incident.

The Board will also consider whether to approve the CSB’s draft 2012–2016 Strategic Plan, which includes strategic goals, objectives, and associated measures for managing and evaluating agency operations. The draft plan is available for public comment until April 12, 2012 at www.csb.gov. All comments can be submitted via email to strategicplan@csb.gov.

Please notify CSB if a translator or interpreter is needed, at least 5 business days prior to the public meeting. For more information, please contact the U.S. Chemical Safety and Hazard Investigation Board at (202) 261–7600, or visit our Web site at: www.csb.gov.

Daniel Horowitz,
Managing Director.
